Police Interface Module

Multi-function System

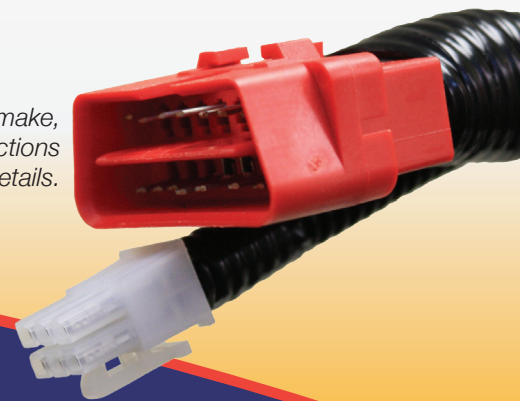

Overview

- Designed specifically for police vehicles to allow for multiple features to be utilized on one module
- Configurable for multiple additional features
- Less expensive than a-la-carte module purchases
- Includes features unique to each vehicle line

Features

- Reprogramming of steering wheel aux buttons to be used in any combination of momentary, latching, timed or radio
- Can be used to activate lights, sirens, spotlights, push-to-talk radio and installed features
- Ford and Dodge versions have features not available on other modules

Product features may vary by make, model or year. See instructions for complete details.
