

CAN VEHICLE CONTROLLER

OVERVIEW

- Allows for separate controls for chassis and coach HVAC systems – Ambulance spec requirement
- Optional high idle control
- Low VBAT charge protection
- AUX fan output
- Meets Ford QVM requirements

WHY CVC

SAFETY AND COMFORT

If a patient needs the body to be one temperature and the driver needs another temperature, both can be comfortable in the vehicle.

CONTROL

It is easy for both the driver and the care provider to have independent control.

EASY INSTALLATION

PLUG & PLAY

Safe, Simple and Reliable

An ISO 9001 Registered Manufacturer
