

ECO-STAR

IDLE REDUCTION SYSTEM

SAVE FUEL
IMMEDIATELY

OVERVIEW

- Turns off and on engine when specific conditions are met
- Configurable to custom conditions
- Helps meet new anti-idling regulations
- Optional thermostat to keep drivers and passengers comfortable

CUTS IDLING FUEL
CONSUMPTION IN HALF

WHY ECO-STAR

FUEL SAVINGS

Pays for itself in a short period of time.

AUTOMATIC

Conserve fuel without drivers thinking about it.

EFFICIENT

It's more efficient to turn a warm engine off and on, than to idle for more than 5 seconds.

ECO-FRIENDLY

Reduces CO2 emissions. It saves 19lbs per gallon burned while idling.
