

HAWKEYE

REVERSE ASSISTANCE SYSTEM

OVERVIEW

- HawkEye is automatically activated when the vehicle is put in reverse
- Ultrasonic signals cast a 160° horizontal arc along the rear corners of the vehicle
- If the sensors detect an object within 7 feet, an alarm sounds
- The LED panel displays the distance, in feet, to the object
- The display also indicates which side of the vehicle the object is on

WHY HAWKEYE

SAFETY

While in reverse, if the vehicle comes within 7 feet of an object, the system lets the driver know, with an audible and visual warning so they can react.

DASH MOUNTED

The reversible LED display can be mounted on the dash or the ceiling.

OPTIONS

- 4 rear sensors
- 6 rear sensors, including two up high
- Or 4 front sensors
