

IDLE TIMER CONTROLLER

SAVES
FUEL AND MONEY

OVERVIEW

- Turns vehicle's engine off after a pre set time
- Easy to override if vehicle is in use
- Microprocessor performs diagnostic tests every time it is used
- Operates like Ford's diesel engine shut-down

WHY IDLE TIMER

FUEL SAVINGS

Turns off the engine after 5 to 15 minutes, automatically.

PLUG AND PLAY

Installs quickly and easily.

EASY TO USE

Conserve fuel without drivers thinking about it, also easy to override.

ECO-FRIENDLY

Helps meet state and local anti-idling laws.

An ISO 9001 Registered Manufacturer
