

# SEAT BELT MONITORING SYSTEM

## OVERVIEW

- Makes sure everyone is in the right set belt securely fastened
- Audible and visual warning when a seat is occupied and a seat belt is not fastened
- All data is stored on a vehicle recorder and can be uploaded to a computer
- The LED Panel displays real time seat and belt status
- Meets NFPA 1917 requirements

**PLUG AND PLAY  
EASY TO INSTALL**

## WHY MONITOR

### SAFETY

When time and safety is of the essence, the seat belt monitor automatically lets the driver know if everyone is secure.

### DASH MOUNTED

The LED Display is dash mounted so it is easy to see and hear if anyone is not secure.

### OPTIONS

Optional vehicle data recorder is available. Monitors seat belts in both attendant and bench seats. Adjustable audible indicator.
