

SPEED SENTINEL

OVERVIEW

- Speed Sentinel limits the speed a vehicle can travel
- It does not limit the engine output below the maximum speed setting
- Using Speed Sentinel can save you about \$0.21 a gallon in effective fuel cost
- Some insurers also discount rates for companies using speed limiters

**PLUG AND PLAY
EASY TO INSTALL**

WHY SPEED SENTINEL

INCREASE FUEL ECONOMY

Speeding costs money. Every 5 mph a vehicle travels over 60 mph reduces fuel economy by 7 percent.

REDUCE ACCIDENTS

In major studies, speeding is the number one factor in traffic fatalities. It also nearly triples the odds of an accident.

PASSING MODE

This mode can be enabled for 10 seconds to pass another vehicle or if the vehicle needs to accelerate for safety reasons.
