

WORK TRUCK SHIFT INTERLOCK

OVERVIEW

- Fully automated shift interlock system
- Makes sure everything is secure before the vehicle can move
- While operating the tow lift, WTSI locks the vehicle in place securely
- Compact unit is easy to install
- CPU performs self-diagnosis every time vehicle is started

WHY WTSI

IMPROVES SAFETY

Prohibits shifting out of park when equipment is not secure.

AUTOMATIC

Supply a ground signal when the equipment is in use and the WTSI automatically engages.

PLUG AND PLAY

Installs in minutes and works easily.
